DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5, drawn to an apparatus for rapid screening comprising a jogger.

Group II, claim(s) 6-12, drawn to an apparatus for rapid screening comprising a cutter.

Group III, claim(s) 13-16, drawn to a method for rapid screening .

Group IV, claim(s) 17, drawn to an apparatus for rapid screening comprising a particulate concentrator.

2. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Group I does not require the use of a cutter or a particulate concentrator.

Group II does not require the use of a particulate concentrator.

Groups III and IV do not require the use of a cutter or a particulate concentrator.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement might be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
